

QUALITY AND ENVIRONMENTAL PROTECTION POLICY

Brebeck Composite s.r.o. is a leading manufacturer of composite material products for high-end motorsport, automotive, and aerospace industries. Our vision is to be a globally recognized and sought-after partner in the field of composite material production, with quality, innovation, and environmental responsibility being our top priorities.

Brebeck Composite s.r.o. is committed to providing products and services that meet even the highest customer requirements, comply with international standards ISO 9001, ISO 14001, and AS 9100, and minimize environmental impacts.

Our quality and environmental protection policy is based on the following principles:

- **Adherence to the highest quality standards**

We focus on precision and reliability in our production processes to deliver products that meet our customers' requirements, expectations, and agreed deadlines.

- **Building long-term partnerships**

We strive to establish and maintain long-term relationships with customers and suppliers based on trust, professionalism, and mutual benefits.

- **Responsibility towards legislation and standards**

We comply with all legal, regulatory, and industry requirements, including aerospace and aviation specifications (AS 9100). Our processes are continuously evaluated and adapted to current standards and regulations.

- **Innovation and technology**

We continuously invest in modern technologies and procedures that enhance the quality of our products and minimize environmental impacts. We encourage our employees to take a creative approach to finding innovative solutions.

- **Environmental protection**

We aim to minimize negative environmental impacts through efficient resource use, pollution prevention, and responsible waste management. We protect the health of our employees and promote safe working conditions.

- **Employee development and education**

We provide our employees with opportunities to increase their qualifications and expertise. Key values such as openness, collaboration, and a willingness to embrace change form the foundation of our corporate culture.

- **Risk prevention and continuous improvement**

We regularly evaluate and improve our quality and environmental management system to enhance its effectiveness, environmental performance, and process safety.

The management of Brebeck Composite s.r.o. is committed to actively supporting and promoting the principles of the quality and environmental protection policy, ensuring the necessary resources, and creating optimal conditions for their implementation.

We encourage our employees to actively participate in maintaining and improving the performance of the integrated management system.

Employee expectations:

Fully respect and consistently apply the principles outlined in this policy.

Actively contribute to improving the efficiency and performance of processes across the company.
